Edition Five

Casebook

Edition Five

Inspire & Create

At Interface, we know our products shine brightest when they are used in great projects. We're just as proud of the designers that find new ways to use our products as we are of our teams that created them.

Our Casebook features some of our favourite interiors using carpet tile, LVT and nora[®] rubber flooring. If you want to know more about the products used, you can search for them at **[interface.com](https://www.interface.com)**
